

# Joshua A. Popoola

## Objective:

"Driven web developer, aspiring computer scientist, and emerging data scientist with a passion for creating innovative, user-centric, and data-driven solutions. Skilled in responsive web design, programming, and data analysis, I am seeking an internship to apply my skills in real-world projects, collaborate with talented teams, and gain valuable experience to advance my career in tech and data science."

## Skills & Qualifications

- ✓ 1+ Year with front and backend development
  - ✓ Extensive Knowledge in UI/UX Design
    - ✓ Good Knowledge in web design
  - ✓ Extensive Knowledge in Data Science

## Tech stack

- ✓ JavaScript, Python
- ✓ NodeJS, Express, FastAPI
  - ✓ React, Next JS
- ✓ Postgres, MongoDB, MySQL

## Work History & Projects

### WEB DEVELOPER | FOOD WEBSITE LANDING PAGE PROJECT 10/2023 – 11/2023

Independently designed and developed a responsive landing page for a food-related website, focusing on user experience, performance, and mobile-first design.

### UI/UX | BOMJO PAY FINTECH APP 09/2023 – 10/2023

Designed and developed a hypothetical fintech application aimed at streamlining payment processes for users, focusing on usability and security.

### WEB DEVELOPER | PORTFOLIO WEBSITE 08/2024 – 09/2024

Designed and developed a modern, responsive portfolio website to showcase web development skills and projects, with a focus on visual appeal and user experience.

## **Accomplishments**

- ✓ Developed a mouth-watering UI for my food website, elevating user engagement.
- ✓ Designed clean and user-friendly pricing cards, enhancing plan clarity.
- ✓ Designed a stunning hero section, showcasing my skills effectively.
- ✓ Developed a user-friendly interface for Bomjo Pay, enhancing accessibility.
